HEBRON CHIROPRACTIC II, INC.
AUTHORIZATION OF TREATMENT
ASSIGNMENT OF INSURANCE BENEFITS
FINANCIAL AGREEMENT

Authorization must be signed by patient if age 18 or over or by a minor (under 18) emancipated or otherwise eligible pursuant to KRS 214.185 (See Consent Procedure); or by the parent or legal guardian for any other minor or by the patient's guardian if the patient is disabled.

PATIENT: _____ DATE: _____
(Please Print)

1. I hereby consent to treatment by Jonathan Langley, DC, and/or Stacey Lang, DC believing that I am suffering from a condition requiring chiropractic and/or nutritional treatment, and authorize such care and diagnostic procedures. I acknowledge that no guarantees have been made to me as to the effect of such examination or treatment of any condition.
2. I understand that no assurances or guarantees have been given by anyone concerning this treatment or the results that may be obtained.
3. I acknowledge that it has been explained to me the diagnostic and treatment procedures to be provided are limited to chiropractic and/or nutritional treatment.
4. I hereby authorize treatments and/or procedures and the use of same or further medical study. I further authorize the treating doctors to use their discretion in allowing persons to observe such treatment, testing or treatments in the furtherance of diagnostic research.
5. I hereby authorize HEBRON CHIROPRACTIC II, INC to release medical and any psychological information to third party payors.
6. I understand that charges will be made for treatment and the use of laboratory and diagnostic testing and any other services performed in accordance with the prescribed treatment plan all of which I agree to pay. I hereby assign all hospital insurance benefits, workers compensation benefits, personal injury protection benefits and any other insurance benefits that may arise to HEBRON CHIROPRACTIC II, INC. A photocopy of this authorization shall be considered as effective and valid as the original.
7. I understand that should the status of my account become delinquent, any charges resulting from the collection of said account are incurred by myself. I further understand that should my account be sent to our collections attorneys after 3 written notices, a 35% fee will be assessed to my account to cover collections fees.

Signing below acknowledges that you understand these guidelines and were given a copy of the NOTICE OF PRIVACY PRACTICES in accordance with the Health Insurance Portability and Accountability Act of 1996 ("HIPAA").

Hebron Chiropractic - Informed Consent to Chiropractic Care

When a person seeks chiropractic care, it is essential for both the individual and the chiropractor to be working towards the same objective. Chiropractic has only one goal. It is important that each person understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

Adjustment: An adjustment is a specific application of forces to facilitate the body's correction of a vertebral subluxation. Our method of correction is by specific adjustments of the neurospinal system.

Health: A state of optimal physical, mental, and social wellbeing, not merely the absence of symptoms.

Vertebral Subluxations: A misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of the nerve function and interference to the transmission of mental impulses, resulting in a decrease in the body's innate ability to express its maximum health potential. I understand that my care at Hebron Chiropractic will be focused on the detection and correction of vertebral subluxations. I hereby request and consent to the performance of chiropractic adjustments and neurospinal assessments by Dr. Jonathan Langley, DC and/or Dr. Stacey Lang, DC. Understanding that every body has a different potential for wellness thus, the maximal results I will receive in this office cannot be predicted or guaranteed. Chiropractic care is considered to be one of the safest and most effective forms of care. I understand and am informed that, unlike many other health care professions, the risks associated in receiving chiropractic care are extremely minimal. In recent years there has been rare incidents of injury to the vertebral artery during the course of care by medical doctors, physiotherapists and chiropractors. To put this in perspective, the risk of stroke in the general population is 0.00057%. The risk of death from taking an aspirin and/or other anti-inflammatory drugs is 0.04%. The risk of stroke after a chiropractic adjustment is 0.00025%. The most common complaint of chiropractic treatment is ache or stiffness at site of adjustment. As your chiropractor, I am aware of these complications, and in order to minimize their occurrence, I will take precautions. These precautions include, but are not limited to, my taking a detailed clinical history of you and examining you for any defect which would cause a complication. This exam may include the use of x-rays. The use of x-ray equipment may pose a risk if you are pregnant and/or have a pacemaker. If you are pregnant or have a pacemaker, you should tell me when I take your clinical history. It is not our goal or intention to diagnose, treat or attempt to cure any physical, mental, emotional ailments, or to give advice about medical conditions. If while being served you become concerned about symptoms or conditions, we suggest you seek the help of a symptom, sickness and disease care professional.

Our primary goal is to release life and healing energy in the body, through the detection and correction of vertebral subluxation.

I, _____ have read and fully understand the above statements. (print name)
I have also had an opportunity to ask questions about its content. By signing below I agree to the abovementioned chiropractic procedures. I intend this consent form to cover the entire course of my care in this office.
